

Prof Dr Willem van Leeuwen was born on April 13<sup>th</sup> 1954 in Rotterdam, The Netherlands. He studied Microbiology on the University of Applied Science in Rotterdam (BSc in 1975) and specialized in **Medical Biology** on the University of Applied Science in Etten-Leur, The Netherlands (MSc in 1982). In 2002 he wrote his thesis “Binary typing of *Staphylococcus aureus*” and became a specialist in Medical Molecular

Microbiology at the Erasmus Medical Center Rotterdam, department of Medical Microbiology & Infectious Diseases. The population structure analysis and host-pathogen interaction of *Staphylococcus aureus* were the subjects of study during the post-doctoral phase in the department of Medical Microbiology & Infectious Diseases at the Erasmus MC Rotterdam. From august 2002 and ongoing he is responsible for the Molecular Diagnostics (validation and implementation of new diagnostic platforms) at the unit of Microbiology Diagnostics. In February 2007 he was invited to become lecturer Innovative Molecular Diagnostics at the University of Applied Science of Leiden, the Netherlands and became **coordinator of the Toplab in Leiden**. In September 2013, he was appointed as professor at the University of Applied Science Leiden and coordinates on a fulltime basis the researchlab, Toplab.

In 2003 he was appointed editor of *Microbiology* of the General Society of Microbiology and mini-review editor for FEMS Immunology and Medical Microbiology. Since 2009, he became editor of the Iranian Journal for Microbiology and review editor of the European Journal of Clinical Microbiology & Infectious Diseases.

Director, co-organizer of the post-graduate course “Molecular Diagnostics”, post graduate school Erasmus University Rotterdam, the Netherlands, since 2006.

Tutor instructor of the master course Infection and Immunity at the Erasmus Medical Center Rotterdam, the Netherlands, since 2008.

Staffmember/ instructor of the Dutch National Committee for Medical-Biological Research Training (MMO) in the Netherlands since 2011.

Member of the Dutch Society of Medical Microbiologist (NvMM) and the Study group of Molecular Microbiology of Infectious Diseases (WMDI) since 1996.

Member of the European Society of Clinical Microbiology and Infectious Diseases (ESCMID) since 1996.

Honorary member of the Iranian Society of Microbiologists since 2010
