## Summary of Professional Profile

Certified Medical Doctor (MD) and Ph.D. in Biomedical Ethics with 18 years of experience in teaching, research, and governance of bioethics and health law. I have held successive positions as an associate professor, clinical ethics consultant, member of research and clinical ethics committees, and health ethics policymaker at institutional, national, regional, and global levels. Throughout my career, I have applied bioethics to various health system aspects and gained international recognition as an expert in research, clinical, and public health ethics. Additionally, I have served as a consultant to international organizations including UN bodies such as the World Health Organization and UNESCO. My expertise spans both Low-and-Middle-Income Countries (LMICs) and High-Income Countries (HICs).
