

## In the Name of God

### Islamic Republic of Iran Ministry of Health and Medical Education Deputy Ministry for Education

## Medical Surgical Nursing Master of Science (MSc)

### Total Course Credits

- Core: 28
- Thesis (MSc): 4

### Program Description

Medical-Surgical Nursing is a branch of nursing in which the health and disease of adult clients are of the main concern. Graduates of this program can act more effectively in hospitals as well as other communities to prevent diseases and provide care.

The graduates can fulfill various tasks from prevention to rehabilitation in order to maintain and promote health and provide efficient care in case of diseases or accidents.

It is a valuable experience to perform the program in Islamic Republic of Iran. The curriculum, updated in recent years, would be well-matched with ever-changing needs of developing countries and newly-emerging diseases around the globe.

### Admission Requirements

- Having a bachelor's degree (BSc) in nursing
- Meeting admission requirements of universities
- Being eligible for entering the program

\*Important note: These general conditions do not necessarily exclude specific conditions of each institute or university.

### Expected Competencies at the End of the Program

#### General Competencies\*:

#### Specific Competencies and Skills:

At the end of the program learners will be competent in the following skills:

- Health-related skills
- Procedural skills in the provision of care for adult clients

### Educational Strategies, Methods and Techniques\*

#### Student Assessment (Methods and Types)

- Formative (quizzes and Midterm Exam)
- Summative (Final Exam)
- Oral and written exams, logbook, observation, clinical competence assessment

### Ethical Considerations\*

\*Note: The related document(s) can be found at <http://hcmeq.behdasht.gov.ir>
