Pediatrics Rheumatology

Degree: Subspecialty

Program Description

It is a subspecialty in Pediatrics and is about provision, maintenance & improvement of pediatrics health in related issues. Because of the presence of connective tissue in all body compartments, this science is in close relation with other subspecialties and in patient management, the graduates should have a holistic view.

Duration of the Training program is 24 months. The aim is training of knowledgeable, liable, competent subspecialists.
