## Main Services for Graduates

TEHRAN UNIVERSITY  
OF  
MEDICAL SCIENCES

Diagnosis and treatment plan for children and special health care needs patients in hospital services under sedation or general anesthesia .

### Main Field

Pediatric Dentistry

## Course Duration

12 Months

## Admission Requirements

1. Board-certificate pediatric dentistry with no legal problems for continuing their education
2. Passing the entrance exam and interview

## Educational Strategies, Methods and Techniques

Lecture  
Problem Base Learning [PBL]  
Journal Club  
Group Discussion  
Demonstration  
Case Presentation  
Subjective Systematic Review

## Overall Structure of the Course

### Program Details

This program is offered in 1343 hours, including 221 theoretical hours and 1122 practical hours.

### Course Titles [general, basic or clinical]

68 hours

- **Dependent Courses**

102 hours

- **Specialized and Practical Courses**

51 hours

## General Structure of the Fellowship Course

### 1. Theoretical Units: 51

### 2. Specific Practical Units: 1122

<b>Department Ward ,U nit, or E ducation Setting</b>	<b>Syllabus- Measures  Content -Actions</b>
Pediatric Dentistry Department	<ul style="list-style-type: none"><li>• ,Principles of behavioral management (behavioral, physical (drug and anesthesia guidance</li><li>• Principles of prevention and health care in pediatric dentistry with emphasis on patients under general anesthesia</li><li>• Principles of dental treatment planning in patients under sedation and general anesthesia</li><li>• Familiarity with the principles of equipping and setting up outpatient departments and dental operating rooms in relevant medical centers</li><li>• Objective seminar: one seminar per semester</li><li>• Cases presentation: one case per semester</li><li>• Clinical pediatric Dentistry</li></ul>
