Within this period, in addition to completing the educational courses, students have to choose a topic for their proposal, complete their thesis and eventually defend it.

The process from choosing the proposal topic to the thesis defense is as follows:

- must be a faculty member, **and**
- must have at least 3 years of teaching or research experience in postgraduate level,

Maximum number of Thesis that can be supervised simultaneously by a supervisor:

- Two PhD theses **OR**

- 1- The students must choose a subject for their thesis **with the supervisor's help** sometime after the first semester and before the third semester, and then must announce the subject to the ***related department***.

Note: *Any delay in this matter will cause prolongation of the study period, and may lead to expulsion from the program.*

Important Advice:

- o Before preparing the proposal, students must check with the *School Research Deputy Office* to make sure that the subject has not been covered already; and also to ascertain that the supervisory candidate has not reached the maximum number of thesis that can supervise.
- 2- The students must obtain and complete the *proposal submission form* in accordance with the supervisor's and advisors' instructions, and then submit it to the *Research Council of the related department* for review and initial approval.

IV- PROPOSAL APPROVAL

- 1- For final approval, the proposal has to be submitted to the *Postgraduate Council* of the related school.
- 2- Finally, a **copy of the approved proposal** and a **letter of proposal approval** have to be submitted to the *Office of the Vice Dean for Research Affairs.*

Monitoring Thesis Progress:

- The School Research Deputy Office and Office of the Vice Dean for Research Affairs monitor the progress of theses and demand progress reports from supervisors and students.
